

The President
South African Institute of Industrial Engineers (SAIIE)
P O Box 431
BEDFORDVIEW
2008

23 November 2009

Dear Sir / Madam

Nominations to Professional Advisory Committee (PAC) on Industrial Engineering

The Minister of Public Works, Minister Geoff Doidge, recently inaugurated the new ECSA Council for the period August 2009 to end September 2013.

Furthermore, in terms of the provisions of ECSA's Operating Procedures for Committee's of Council, ECSA is required to establish Professional Advisory Committees (PAC's) for Professional Engineers.

Consequently, ECSA requests SAIIE to nominate registered Professional Engineers for the PAC (Industrial Engineering) who could serve for the new term ending approximately September 2013.

On behalf of the President and CEO of ECSA, I wish to thank all PAC members for their sterling contribution to the Engineering Profession and ECSA over the last term.

ECSA is concerned about the sustainability and representivity of its committees. To this end when finalizing the nominees for the PAC Industrial Engineering, we appeal for consideration to be given to the inclusion of less experienced and female professionals. As the PAC consists of only eight members, room exists for an additional two members to be nominated to expand the capacity of the PAC. Additionally ECSA appeals for particular consideration to be given to the nomination of suitably qualified persons from designated groups which are significantly under represented on PAC committees. The present members of the PAC Industrial Engineering are:

Prof S J Claasen Pr Eng	Chairperson
Dr H van Tonder Pr Eng	Vice Chairperson
Mr J P Burdes Pr Eng	Member
Ms M Cilliers Pr Eng	Member
Mr P J Conradie Pr Eng	Member
Mr P de Jager Pr Eng	Member
Mr J J Louw Pr Eng	Member
Mr R F Rohrs Pr Eng	Member

We kindly request that the nominations be submitted by 5 February 2010 to myself in order to ensure the continuity of the committee work.

Yours faithfully

Johan Pienaar
Manager: Registration
