

Heinrich Pretorius

Heinrich Pretorius gained fast experience in the field of Inventory management within the Manufacturing and FMCG (Wholesaler) sectors. ERP systems include SAP, Embrace and SAGE. Knowledge gained in other fields within the supply-chain environment include procurement, logistics, logistics network and strategy analysis study, sales and marketing. He is currently working for Saint-Gobain Construction products as Business Process Manager where he gained vast experience in project management. He is naturally an optimistic person that brings contagious energy and enthusiasm when dealing with people. He is aware of exclusion and understands its repercussions; consequently, he makes sure all relevant stakeholders are included. Since he has a high-level of tolerance with and acceptance of diversity it helps him to deal with diverse cultures. He believes in an open-door policy. He is patient with the inexperienced, which helps him to support team members that needs guidance. He brings forth a willingness to follow the lead of change. He performs extremely well under pressures that demand an immediate response and naturally brings emotional intelligence since he can easily pick up the emotions of others. He is currently the Honorary Treasurer of SAIIE.
