

COURSE INFORMATION

Online Course: Introduction to Project Management

Presented by the Department of Engineering and Technology Management,
University of Pretoria

Open for enrolment until 30 Sept 2018

Organisations are increasingly structuring and managing their operations, apart from only projects, on Project Management principles. The success of adopting a project approach to all work aspects, and acquiring and mastering Project Management skills, is so much more important in today's professional environment.

The Introduction to Project Management online course is offered over a period of 4 months (with an anticipated four hours of learning per week) and approximately six hours required for assignments.
